HARDY TREES AND PLANTS
FROM THE HEART OF THE OZARKS

ARKANSAS NURSERY CO
The Mail Order Nurseries
Fayetteville, Arkansas.

PLANTING DIRECTIONS

We send a complete set of planting directions with each order, telling how to plant, prune and otherwise take care of the trees. This information is very valuable, it comes from authoritative sources and can be relied upon.

OUR NURSERIES ARE STATE-INSPECTED

Our trees are free from injurious insects and fungus diseases. Our nurseries are inspected annually by the State Inspector and a certificate of inspection accompanies each shipment.

Prepaid Charges.

We prepay express or freight charges on orders amounting to \$5.00 or more. Nursery stock travels by fast freight and the rate is low. Trees are delivered free on board cars at our packing house and every means used to rush the shipment.

The safe arrival of your order is assured. We will replace, free of charge, shipments lost or spoiled en route to your railroad shipping station.

CAREFUL SELECTION IN FILLING ORDERS AND PACKING THAT INSURES SAFE ARRIVAL.

Our method of packing is the same as is used by all reliable companies and insures the trees reaching you in good growing condition and without being damaged in any way. Our facilities are such that we can fill any number of orders promptly and as our packing house is convenient to the railroads it is easy for us to get all shipments to the transportation company immediately after the packing is finished. We spare no expense to insure trees reaching you in a thrifty condition.

ORDER EARLY

Orders are filled in the order in which they are received. Order early, and get your stock early. If your ground is not in condition to plant, the stock can be left in boxes. If taken out, cover roots well with moistened earth.

PARCEL POST

No matter how far you live from the railroad, nor how small an order you may have, we can reach you by parcel post. All such orders are sent prepaid, and guaranteed to reach you in first class growing condition.

ARKANSAS NURSERY COMPANY, FAYETTEVILLE, ARKANSAS

FRUIT TREES GROW TO PERFECTION IN THE OZARKS

It is very true the soil and climatic conditions in the Northwest Arkansas district, in which our nursery is located, are favorable to growing stock that is hardy and vigorous, with well developed root systems—trees that will thrive in any section.

In this Ozark region we have a long growing season, enabling us to grow larger and heavier trees. The autumn is "open" but frosty, which ripens the trees up gradually, hardening the wood and maturing them naturally, so that when winter comes they are in perfect condition and full of vigor. They are the hardiest fruit trees grown, and because of their vigor are the best trees for you to plant.

It is needless to mention that Northwest Arkansas produces the very finest fruits, and it is reasonable to suppose that the best nursery stock can be grown in this section where fine fruit is produced.

Bulletin 275, U. S. Dept. of Agri., says this:

"That the principal soil types in the Ozark region which have been commonly devoted to apple and peach orchards are well adapted to the growing of trees is very apparent. One of the most striking pomological features of the region is the large size of the trees, for their age, in the young orchard, at least until they are 10 to 15 years old, in comparison with trees of the same age in many other fruit-growing regions in the Eastern States. This unusual tree growth cannot be attributed to an unusual fertility of the soil, as the general farm crops grown in the region do not indicate that it is more fertile than good farming land in other regions. It is probable that the character of the subsoil contributes very largely to the growth of the trees. As a rule, in most of the types the subsoil is relatively loose and porous and generally it has considerable. These conditions are favorable to the development of good root system."

OUR GUARANTEE

The guarantee which we make is very broad and we believe is as liberal a guarantee as any nursery company makes. Our guarantee is intended to protect our customers against any unintentional mistakes that may occur in the handling of their orders. We use every precaution in our packing plant to insure each customer receiving just the varieties that are ordered and in the right quality. Mistakes sometime happen, but when they do we request as a favor that the mistake be called to our attention so that we may rectify it in a manner that will be more

OZARK GROWN TREES AND PLANTS ARE MOST PROLIFIC

than satisfactory to our customers. We guarantee that the trees and plants which we ship are true to name. If they are not, we will, on proper proof, replace the actual number of trees free of charge, or refund the actual price paid us for the trees originally. We do not know of any customer that ever had occasion to take up a mistake with us that is any other than exceptionally well pleased with the manner in which we make good our guarantee.

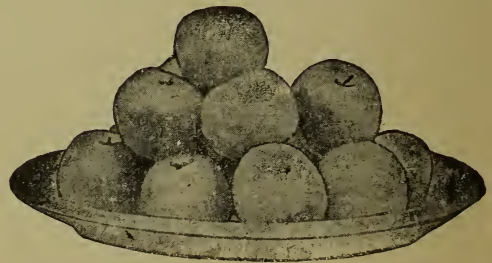

HERE ARE THE REMARKABLY LOW PRICES WE ARE MAKING ON THESE FINE OZARK GROWN FRUIT TREES

Our prices are low, but of equal important is the fact that the trees we are selling at these prices are of as good quality as can be grown. For that reason, no matter what price you might pay other companies, it would not be possible for you to obtain trees that will grow better or produce better.

The reason for these low prices is a very simple one. We have entirely eliminated the middle-man, the agents and salesmen, and have deducted from our prices the large commissions that are regularly paid to these middlemen. Selling direct to the planter not only is more satisfactory to both the purchaser and ourselves because of closer relationship, but the actual money saving to the purchaser is of considerable importance.

SELECT VARIETIES OF APPLES

Every home should have at least enough apple trees to supply all fruit for home consumption. Apples are easy to grow in any climate and do not require a great deal of attention. The varieties we are describing briefly in this circular are standard everywhere, and are prolific producers in practically every section.

A PLATE OF WINTER BANANA APPLES

SELECT VARIETIES OF APPLES

These prices apply to all varieties listed herewith except Delicious.

3 to 4 ft. Apples trees, each 15c; 10 for \$1.25; 100 for \$8.00
4 to 5 ft. Apple trees, each 20c; 10 for \$1.50; 100 for \$12.50

SUMMER VARIETIES

YELLOW TRANSPARENT—Best early market apple. Trees will bear at two and three years old.

EARLY HARVEST—Yellow with sub-acid flavor, juicy and very desirable.

RED JUNE—Medium size, red splendid flavor and good bearer.

RED ASTRACHAN—Large, red round and good cooker.

SUMMER QUEEN—Very large, yellow with stripes.

LIVELAND RASPBERRY—The best early red variety. Tree very hardy and a fine market variety.

SUMMER PEARMAIN—Large, yellow and good early variety.

HORSE—Large, yellow, and good for kitchen use.

MAIDEN BLUSH—A fine variety for home use and market, yellow with red cheek. Tree hardy and a good grower.

SWEET BOUGH—Large, pale yellow, popular, and high quality. A good market variety.

FALL VARIETIES

GRIMES GOLDEN—Yellow, highest flavor, and a good bearer. One of the best commercial varieties.

SHANNON PIPIN—Green, extra large and good.

DUTCHESS—Russian variety. Tree hardy, vigorous and good bearer.

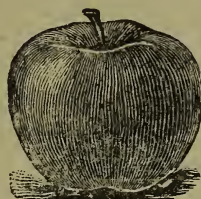

ROME BEAUTY—Large, with red stripes, tender and juicy. A fine variety for either home or market.

JEFFERIS—Tender and prolific, quality best, hardy tree.

SNOW—Red, flesh white and juicy.

YELLOW BELLFLOWER—Juicy and fine flavor.

WEALTHY—One of the most desirable varieties. It is gaining in popu-

THE JONATHAN APPLE

larity. Productive, dark red in color. Fall variety, but keeps well in cold storage.

FALL PIPIN—Large, yellow, tender and juicy.

WINTER VARIETIES

JONATHAN—One of the best commercial varieties, young and productive bearer.

BLACK BEN DAVIS—Of the Ben Davis type, a large red apple, hardy, and a fine market apple.

WINESAP—Dark red, fine flavor.

STAYMANS WINESAP—One of the finest apples in cultivation. Superior as a market variety to its parent, the old Winesap.

MAMMOTH BLACK TWIG—Very large, flat shaped, dark red, good quality, valuable for market.

YORK IMPERIAL—Red, good bearer, fine for market.

ARKANSAS BLACK—Fine color, good keeper, but a shy bearer.

COFFELT—Cross between Ben Davis and Red Limber Twig, a good bearer and a fine keeper.

COLLINS RED—(Champion), bright red, medium size, good keeper, good bearer, a valuable market variety.

GANO—Of the Ben Davis type, large, red apple, hardy and a fine market apple.

MCINTOSH RED—Dark red, best qual-

OZARK GROWN TREES AND PLANTS ARE MOST PROLIFIC

ity, juicy and refreshing. A good annual bearer of handsome fruit.

OLIVER RED (Senator)—A fine large apple of uniform shape and size.

BEN DAVIS—Too well known to need description.

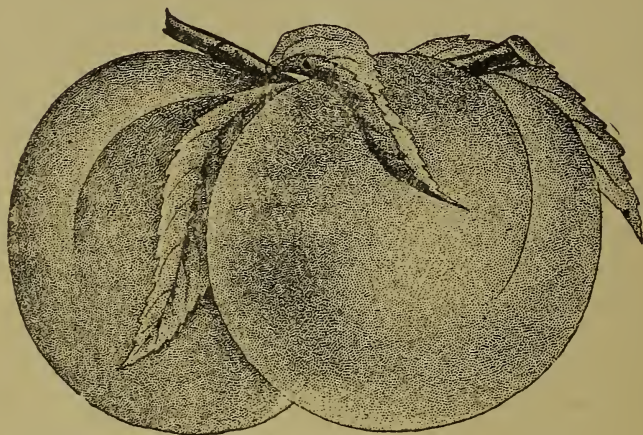

WOLF RIVER—Very large, tree very strong grower and a fine bearer.

WINTER BANANA—Fancy market, fruit is a pale yellow.

DELICIOUS—Large, with surface almost covered with a most brilliant dark red, blending to golden yellow at the blossom end. Unsurpassed quality and very sweet flavor, slightly touched with acid. It is one of the strongest, hardiest, most vigorous growers among apples and a splendid keeper. Each 25c; 10 for \$2.00; 100 for \$15.00.

BY ALL MEANS ORDER SOME OF THESE PEACH TREES

Some folks have the idea that peaches are hard to grow, but as a matter of fact, when given ordinary attention, this is, cultivated and pruned, peach trees thrive in most any section, except where the winters are very severe, and usually produce a

THE POPULAR ELBERTA PEACH

bountiful crop. There is no reason why you cannot have a small peach orchard that will provide delicious fruit for your own use and a surplus, perhaps, that can be marketed at a good profit. We are listing herewith the best known varieties of peaches, those that will thrive in practically every state.

The low prices at which you can buy these Arkansas grown Peach Trees.

ARKANSAS NURSERY COMPANY, FAYETTEVILLE, ARKANSAS

3 to 4 ft. trees, each 15c; 10 for \$1.00; 100 for \$8.00.

4 to 5 ft. trees, each 20c; 10 for \$1.50; 100 for \$12.50.

ALEXANDER—Medium to large, is very juicy, of good quality.

ARP BEAUTY—Yellow skin and flesh, red cheek, semi, cling.

BELLE OF GEORGIA—Large, white with red cheek, flesh white. Freestone. Ripens with the Crawford Early.

CARMAN—Large, creamy white with deep blush.

CHINESE CLING—Very large, juicy and sweet.

CRAWFORD'S EARLY—One of the best yellow peaches, vigorous and productive. Large size.

CRAWFORD'S LATE—Yellow, very hardy, good bearer.

CROSBY—Fine, bright yellow peach, streaked with carmine. Freestone.

EARLY RIVERS—Large, creamy white with deep blush.

ELBERTA—Good bearer, hardy. A good commercial, yellow peach.

EMMA—Large, yellow peach, resembles the Elberta. Freestone.

FITZGERALD—Flesh rich, deep golden yellow, very firm. Ripens between Early and Late Crawfords.

FOSTER—Large, fleshy yellow, rich and juicy, Early.

GREENSBORO—Large, oblong, rich, juicy, sub-acid. Early.

HEATH CLING—Very large, creamy white with faint blush. Flesh white.

MAMIE ROSS—White, splashed with red. Semi-cling to free when fully ripe.

MAYFLOWER—The best early peach. Brings fancy price in market. Color "red all over."

OLD MIXON FREE—Large, yellowish white with deep red cheek. Tender and juicy, very hardy and productive.

PEACH GROWTH IN THE OZARKS

SALWAY—Strong grower, productive, yellow, well known and very popular.

SLAPPY—Thrifty grower, very hard and prolific. Excellent flavor, good keeper. Freestone.

SNEED—Fruit medium to large, greenish white, blush on sunny side. Juicy. Semi-cling.

STUMP THE WORLD—Large, roundish, skin white with bright red cheek. Flesh white, juicy and good. Freestone.

TRIUMPH—Early, yellow, abundant, bearer, vigorous grower.

PROVIDE SPACE FOR A FEW APRICOT TREES

The Apricot is one of the earlier fruits, ripens a month or more before the best early peaches and for this reason always is in large demand.

Our Very Low Prices

3 to 4 ft. trees, each 20c; 10 for \$1.50; 100 for \$12.50

4 to 5 ft. trees, each 30c; 10 for \$2.50; 100 for \$18.00

EARLY GOLDEN—Large, bright yellow, with red cheeks. Very productive. low, delicious flavor.

RUSSIAN—Tree hardy, immense

MOORPARK—Large, orange yellow bearer.

CHERRIES ARE FAVORITES WITH EVERYBODY

There are not many more desirable trees than the cherry. Can be planted near the road, along fence lines and in many other places where other fruit would not be prolific. Cherry trees thrive in any climate and produce perfect fruit.

These low prices apply to all varieties listed below.

3 to 4 ft. trees, each 25c; 10 for \$2.00; 100 for \$15.00.

4 to 5 ft. trees, each 30c; 10 for \$2.50; 100 for \$20.00.

DYEHOUSE—Ripens a week before the Early Richmond, fine quality and very productive.

EARLY RICHMOND—Light red, very valuable for cooking, early in the season. Tree a good grower, hardy, healthy, and very productive.

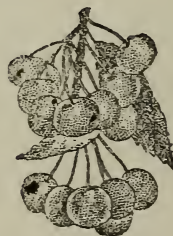

MONTMORENCY—Tree very hardy and an immense bearer. Commences to bear while young and is loaded annually thereafter with fine crops. Fruit very large, fine flavor, bright clear red. Valuable everywhere. A week later than the Early Richmond.

ENGLISH MORELLO—Very dark red, nearly black, large. Tree dwarf grower and early bearer. Ripens after the Montmorency.

NAPOLEON—(Royal Ann)—Sweet and yellow. Tree vigorous, strong

growing, and abundant bearer. One of the best yellow varieties.

BLACK TARTARIAN—Very large, flavor mild and pleasant. Tree a remarkably vigorous, erect and beautiful grower, immense bearer.

LARGE MONTMORENCY CHERRY

BING—A most delicious, sweet cherry. Fruit is large, dark brown or black and of very fine quality.

OZARK GROWN TREES AND PLANTS ARE MOST PROLIFIC

GOVERNOR WOOD—Fruit large, light yellow with red cheek, juicy and sweet. One of the very best varieties.

ROYAL DUKE—Medium large, roundish, heartshaped, red flesh, sub-acid, sweet and rich, one of the sour varieties suitable for desert.

WRAGG—Dark crimson and when

ripe, black, or nearly so. Flesh and juice light crimson, firm and good. A sour variety very productive, hardy and sure cropper.

BALDWIN—A sour variety fruit, very large, round and dark red, unexcelled in earliness, vigor, hardiness, quality and productiveness.

NO ORCHARD IS COMPLETE WITHOUT PEARS

Pears are a quality fruit. The Pear is closely related to the apple, and like the apple, thrives on many soils. It is noted for its great delicacy, mild, sweet and delicious flavor, and the melting, juicy texture of its flavor, surpassing the apple in these respects. The pear is a beautiful, ornamental tree for the yard with its dense, glossy green foliage and straight upright growth. We are listing varieties that our quarter of a century dealing with the planters in all sections have taught us are the best. You can depend on these varieties coming up to your expectations.

You Can Buy Pear Trees at These Low Prices.

3 to 4 ft. trees, each 25c; 10 for \$2.00; 100 for \$15.00.

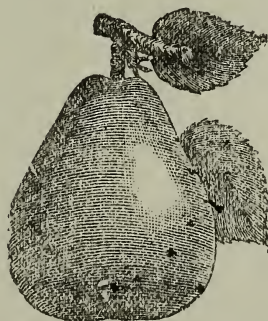

4 to 5 ft. trees, each 30c; 10 for \$2.50; 100 for \$18.00.

EARLY HARVEST—Fruit medium to large. Rich golden yellow with red cheek, thickly covered with gray dots. Valuable for early market.

BARTLETT—Large size, buttery, very juicy and highly flavored. Bears early and abundantly.

DWARF DUCHESS—Very large, with rough and uneven surface of a greenish yellow with patches of yellow and a dull red cheek. Vigorous, strong grower and a good bearer.

KIEFER—Fruit large, rich yellow, tinged with red, somewhat rusty, and very handsome. Flesh very white, buttery and juicy. Tree a vigorous grower, early and regular bearer. Very productive, and commands the highest market price.

THE DUCHESS PEAR

GARBER—Fruit nearly round, large and juicy. Noted for vigor, freedom from blight, and heavy bearing.

SECKLE—Small size, yellowish with a red cheek. Flesh whitish, buttery, very tender, juicy and melting. The common Sugar Pear, and a very prolific bearer.

OZARK GROWN TREES AND PLANTS ARE MOST PROLIFIC

CLAPP'S FAVORITE—A beautiful fruit of good quality. Tree is an upright and vigorous grower and bears heavy crops of large, juicy pears with a very agreeable flavor.

FLEMISH BEAUTY—Large size, yellow when ripe, with patches of brownish red; rich sugary flavor. Tree is first-class in hardiness, productiveness and early bearing.

WINTER NELIS—A splendid variety for the home garden. Fruit small, dull green, fine grained, richly flavored, and a fine cooker.

KOONCE-MEDIUM—Yellow with red cheek. Can be picked green and will color up well in a few days.

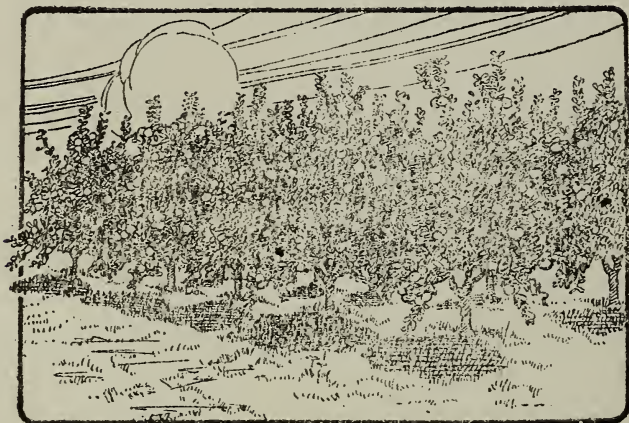

Tree vigorous, bearing large crops annually.

WILDER—Medium small, yellow with dark red cheek, sweet and good for desert. Tree very attractive, of vigorous and symmetrical growth.

ANJOU—Large, greenish, shaded with russet crimson. Flesh is highly flavored and rich. Keeps well until winter holidays.

VERMONT BEAUTY—Medium, roundish, yellow with carmine cheek. Flesh exceedingly fine, sweet and juicy, a splendid table pear. Tree makes strong, healthy growth and bears early.

OUR CAREFULLY SELECTED DOLLAR BARGAIN ASSORTMENTS DELIVERED TO YOUR DOOR BY PREPAID PARCEL POST.

The trees and plants included in these special dollar bargain assortments are small and thrifty. They are heavy, stocky and of the best grade, but smaller than standard sizes. They are what are called, mailing size trees, ranging in size from 2 to 3 ft. and, in some cases, 3 to 4 ft. It is not possible to send larger trees by parcel post because of the limit to the size of the package which the post office will accept.

These special assortments will be packed carefully so as to reach you in perfect growing condition, and undamaged.

We know you will be delighted with any of these special dollar assortments which you desire to order, and we know that

you will find it difficult to locate other assortments that are equal to these in value.

On receipt of your purchase, if you are not entirely pleased in every way with the trees, or if you do not feel that you have saved money, we will refund the purchase price in full promptly on request.

Remember these assortments are sent by prepaid parcel post, delivered to your door.

20 CONCORD GRAPES \$1.00.

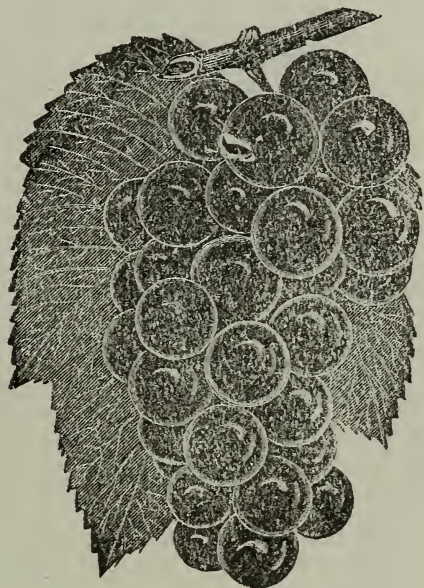

The most thrifty variety and very dependable. Produce delicious fruit, vigorous and unusually productive, and resistant to diseases and insects. A bargain, especially when you consider that they are delivered to your door by prepaid parcel post. On this assortment you save at least \$1.00.

This assortment includes the best varieties, those that are prolific producers in most every locality. 1 Red June, 2 Abundance, 1 Burbank, 1 Wickson and 1 Golden. These six selected Plum trees sent by prepaid parcel post for \$1.00. You save 75 cents on this assortment.

20 ELBERTA PEACH TREES \$1.00.

Perhaps the most popular variety of Peach, and one that grows in practic-

THE CONCORD GRAPE

THE ELBERTA PEACH

ally every section of the country. A good bearer and very hardy. Sent by parcel post, 20 Elberta Peach trees for \$1.00, a saving to you of at least \$1.50.

HOME APPLE ORCHARD \$1.00.

Consisting of 2 Yellow Transparent, summer variety, 2 Maiden Blush, summer variety, 2 Rome Beauty, fall variety, 2 Jonathan, winter variety, 2 Delicious winter variety, 2 Winesap, winter variety. These trees will give you apples covering the entire season and are all standard varieties. These 12 apple trees will be sent anywhere by parcel post for \$1.00 and we pay the postage. Even at the very lowest prices for inferior quality trees, this same assortment would cost you at least \$1.50 more than our price.

KITCHEN GARDEN COLLECTION

GIANT ASPARAGUS

Consisting of 12 Mammoth White Asparagus, 6 Mammoth variety Rhubarb, 6 Horse Radish roots and 3 Sage, all sent by parcel post for \$1.00. You could not buy the same collection elsewhere for less than double this price.

HOME PEACH ORCHARD \$1.00.

Consisting of early to late varieties. 2 Mayflower, 2 Carman, 2 Elberta, 2 Heath Cling, 2 Salway, and 2 Stinson October. The entire assortment will be sent anywhere by prepaid parcel

post for \$1.00. This saves you at least \$1.50.

HOME CHERRY ORCHARD FOR \$1.

This assortment consists of the very best varieties. 2 Early Richmond, 2 Montmorency, and 2 English Morello; the same trees originally would cost you \$2.25, and we will send these by prepaid parcel post for \$1.00.

\$1.00 PEAR COLLECTION.

Consisting of 2 Kieffer, 1 Bartlett, 2 Duchess and 1 Anjou, all good quality, thrifty trees. Your saving on this assortment is at least 75 cents—sent by prepaid parcel post for \$1.00.

SMALL FRUIT COLLECTION \$1.00

This consists of 10 Choice Miller Red Raspberries, 10 Snyder Blackberries, 5 Houghton Gooseberries, and 5 Fays Prolific Currants. Entire assortment sent by prepaid parcel post for \$1.00. A saving to you of at least \$1.25.

EARLY HARVEST BLACKBERRY

YOU SHOULD HAVE A FEW PLUM TREES

You do not find plum trees growing on many farms, and yet plum trees are comparatively easy to grow and produce a fruit that everyone likes and always is in big demand. Any of the varieties we are describing below are suitable to your locality.

Our low direct-to-the-planter prices.

3 to 4 feet Plum trees, each 25c; 10 for \$2.00; 100 for \$15.00.

4 to 5 ft. trees each 30c; 10 for \$2.50; 100 for \$18.00.

EARLY GOLD (Shiro)—Tree a strong grower. Fruit produced in great profusion is large, uniform size; clear, light yellow, and so transparent

ent that the pit can be seen through the flesh, which is firm and juicy. Will keep in good condition for a month.

RED JUNE—Unequalled for market value. Of large size, deep red color, ripens earlier than the Abundance.

ABUNDANCE—A popular new Japanese Plum. A favorite everywhere. Tree thrifty, hardy and beautiful. Fruit large, showy, good, and richly perfumed. A profitable kind and one that should be in all plum orchards.

BURBANK—Japan, yellow covered with purplish red. Abundant bearer.

WICKSON—Originated by Mr. Burbank, who says, "Among the many thousand Japanese Plums I have fruited so far, this one stands pre-eminent." A strong upright grower,

productive, almost to a fault. Excellent keeper and shipper.

WILD GOOSE—Deep red, very sweet and juicy. Tree a hardy and vigorous grower and an abundant bearer. In addition to the above we recommend the following varieties: Mariana, Gold Beauty, Moore's Arctic, Blue Damson.

MOORE'S ARCTIC—Purplish, Black skin, with greenish yellow flesh. Juicy, sweet and pleasant and medium size.

MARIANA—An unusually strong, rapid grower. Fruit larger than the wild goose, round and of a peculiar light red color.

GOLD BEAUTY—A large variety in a rich yellow. Flesh is very firm and sweet. A variety that always is in big demand.

BE SURE TO PLANT SOME GRAPES

If you plant but one fruit by all means plant grapes. Nothing quite so sure to grow; nothing quite so sure to bear and nothing quite so sure to please every mouth. Plant a grape wherever you can find a spot six inches square. Put its roots in any odd nook you can; lead it away in any direction to provide a grateful shade for a restful seat. Grapes grow well in most any section and the varieties we are listing herewith are standard.

Concords—each 10c; 10 for 80c; 100 for \$4.00.

Other varieties—each 15c; 10 for \$1.00; 100 for \$7.00.

MOORE'S EARLY—Bunch large, berry round, color black. Vine hardy, free from mildew and disease. Matures early, twenty days before the Concord.

CONCORD—Large, handsome grape. Vine hardy and productive, one of the most popular market grapes, matures early. Large black.

DELAWARE—Bunches small and

MOORES EARLY GRAPES
compact, berry rather small, round;

skin thin, light red, flesh juicy, exceedingly sweet and a delicious flavor. tough, quality good, a very sweet and white grape.

NIAGARA—Bunches very large, uniform and compact; skin thin but hardy and productive, compact.

GOOSEBERRIES CAN BE EASILY GROWN

Gooseberries should be planted in every garden, no matter how small. They are hardy, rugged and easily grown. The fruit always is in good demand, green or ripe. For the varieties which we are pricing at this low price you would have to pay from 20 to 25 cents in any nursery.

These prices apply to the varieties listed below.

Each 15c; 10 for \$1.00; 100 for \$8.00.

HOUGHTON—The finest grower, very and productive.

productive and free from mildew.

PEARL—Heavy bearer, strong grow-

DOWNING—Fruit large, vigorous, er.

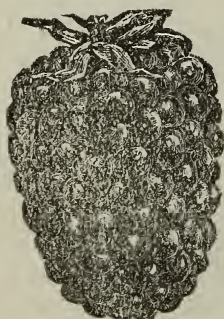

A FEW BERRY BUSHES WILL PROVIDE AN ABUNDANCE FOR USE IN YOUR HOME.

Raspberries and Blackberries are easily cultivated and beds seldom require renewing. Their season of ripening is long, especially the Everbearing varieties of Raspberries.

BLACKBERRIES

SNYDER—Ripens after Early Harvest, very large, sweet and luscious, hardy and productive.

10 for 50c; 25 for 75c; 100 for \$2.25.

THE SNYDER BLACKBERRY

EARLY HARVEST—Very prolific, ripens early. An unequalled vari-

ety for market.

10 for 50c; 25 for 75c; 100 for \$2.25.

RATHBUN—A hardy variety, will endure severe winters. Fruit is sweet and luscious, without hard core, jet black, small seeds.

10 for 75c; 25 for \$1.00; 100 for \$3.50.

TAYLOR'S PROLIFIC—Will stand 30 below zero; berries large and a fine quality, the fruit sweet, juicy and porous.

10 for 50c; 25 for \$1.00; 100 for \$3.00.

LAWTON—Very large, irregular oval. Moderately sweet, finely flavored when ripe.

10 for 50c; 25 for \$1.00; 100 for \$3.00.

WILSON'S EARLY—A superior, large early berry, of sweet excellent qual-

ity, very productive and is earlier than any other variety.

10 for 50c; 25 for 75c; 100 for \$2.25.

BLACK RASPBERRIES

CUMBERLAND RASPBERRY

KANSAS—One of the best caps.

Hardy, handsome, juicy and firm; an excellent field or garden variety.

10 for 40c; 25 for 70c; 100 for \$2.25.

GREGG—A very large bearing, most excellent quality; produces large crops, makes juicy, rich pies.

10 for 40c; 25 for 70c; 100 for \$2.25.

CUMBERLAND—The largest of them all good quality, hardy and productive, fruit firm, similar to Gregg. Ripens midseason.

10 for 50c; 25 for \$1.00; 100 for \$3.00.

RED RASPBERRIES

BRANDY WINE—Large, bright red, very firm, a good quality. Valuable for market on account of its fine

MILLERS RED RASPBERRY

shipping qualities. An early variety.

10 for 40c; 25 for 75c; 100 for \$2.25.

MILLER'S RED — Vigorous and sturdy, very early; fruit large and profuse, beautiful and brilliant in color.

10 for 30c; 25 for 60c; 100 for \$2.00.

ST. REGIS EVERBEARING—This variety has proven its worth, producing fine crops of fruit. Begins to ripen with the earliest and continues to bear on young wood. Berries bright crimson, large size, rich, sugary raspberry flavor. Flesh firm and meaty, a good shipper. Wonderfully productive, and first or main crop equaling any red variety

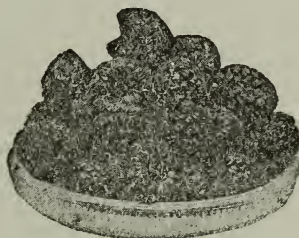

PLATE OF ST REGIS EVERBEARING RASPBERRIES

known. You should have some of these in your garden.

Price each 10c; per doz. \$1.00.

CURRENTS

Price each, 15c; 10 for \$1.00; 100 \$8.00

RED DUTCH—An early, well-known standard variety.

FAY'S PROLIFIC—Abundant bearer, fine flavor.

POMONA—A new red currant, one of the best.

DEWBERRIES

Price, 10 for 50c; 100 for \$2.00.

LUCRETIA — Large, very prolific, sweet flavor.

AUSTIN—Very large, acid in flavor, vigorous grower and very productive.

HIMALAYA BLACKBERRY

A most remarkable fruit, the growth of the vines being different from that of any other berry plant in that the vine lives on and on like a grapevine,

producing immense quantities of fruit year after year. 10c each, \$1.00 per dozen.

100 for \$5.00. By mail, 10c each; 10 for 75c.

Strawberry--Raspberry

Valuable for the extreme north as the fruit is borne on the young growth, and is of course hardy in any climate. This is an entirely new fruit, both in habit of growth and form of fruit. Bushes grow from one to three feet high, and are covered with raspberries in the shape of strawberries. They are upright in manner of setting. Perfectly hardy, bound to become a valuable addition to the fruit line.

Price, 10c each; 10 for 70c;

MULBERRIES

We have had a big demand lately from certain states for Mulberries. We are growing a very large stock of Mulberries this season and have some excellent trees to offer our customers

RUSSIAN — Very hardy, vigorous grower, fruit of small size, varies in color from white to black. 2 to 3 ft. trees each 20c; 3 to 4 ft. trees each 30c. (Prepaid.)

EVERBEARING—Very large, black, handsome, a sweet, rich and excellent variety. 3 to 4 ft. trees each

50c (prepaid.)

EVERBEARING STRAWBERRIES

The idea of having fresh, well flavored strawberries from June to November, would have been ridiculed a few years ago. But the Everbearing Strawberry is here in actual fact. It has been tested, tried and proven. It has made good in both commercial and home garden plantings in widely varying parts of the country.

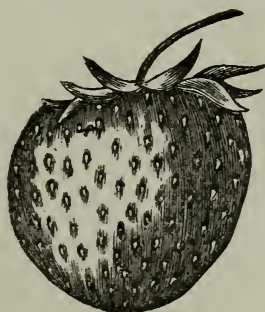

The first crop is borne early in the season at the same time as the standard or June bearing varieties, then there is a continuation of blooming, producing ripe fruit throughout the summer, if conditions are favorable. Following this is another blooming period in the late summer and a large crop follows until severe frosts come. We recommend that you plant a few of one or both of the tested varieties described below:

AMERICUS—This variety is, all thing considered, one of the best of the fall bearing kinds for the amateur to grow. The Americus will produce about as many berries as the other sorts on light and sandy

soils, the fruit will be of average size and the flavor equal to any. But on clay and other kinds of strong, rich soils, Americus will run very large and fine, in fact the largest of any fall bearing berries

are secured from Americus on strong clay soils. A shortcake made of Americus in August or September is the most attractive dish you could imagine. 5c each, 25c per doz.; \$2.00 per 100.

PROGRESSIVE (Per.)—This is a vigorous, thrifty grower. The color of the foliage, manner and habit of growth somewhat resemble the

THE PROGRESSIVE EVERBEARING

Dunlay. Fruit is medium to large in size, of a beautiful dark glossy 5c each, 25c per doz., \$2.00 per 100.

red. Flesh red, firm and of good quality. It will produce as many berries in June as Dunlay or Warfield, and as it bears fruit on the new formed plants, it will continue to produce berries all summer, even up to the time the ground freezes in the fall, but producing the most fruit during the latter part of September and up to about November 1. Just think of it; two crops in one year, with the fall crop selling for more than three times as much per crate as the spring crop. And if the frost should get the blossoms in the spring the plants will immediately commence to produce other fruiting stems and will come right on with a good fair crop just as if nothing had happened. The frost cannot cheat you out of strawberries if you have the Progressive. You will never be sorry if you invest heavy in this variety.

STANDARD VARIETIES OF STRAWBERRIES

100 strawberry plants will fill a space about 20 x 40 ft. and for the home gardener such a bed will provide about all the berries that will be needed for home use. Strawberries are not difficult to grow, in fact are quite easy to grow. The strawberry plants which we ship are scientifically grown by specialists and are of the very best quality. They are all well rooted, vigorous plants that have never fruited. They will be fresh dug and will reach you in good condition.

A few of the leading varieties are as follows:

KLONDIKE—The hardest and most popular strawberry known, very productive, a great market variety.

50c per 100; \$4.00 per 1000.

MITCHELL'S EARLY—An excellent flavored berry that is very productive and one of the best for home planting. Price—

50c per 100; \$4.00 per 1000.

LADY THOMPSON—A well-known variety that is quite popular, running medium to large size. A splendid market berry because it is a good shipper and keeps well in storage. Price

75c per 100; \$5.00 per 1000.

SENATOR DUNLAP—One of the best for preserving and canning, making

a rich red syrup and the berry retains its bright red color. The plant is one of the hardiest and most vigorous. Price

75c per 100; \$5.00 per 1000.

AROMA—The most profitable and dependable strawberry grown. The flavor is deliciously aromatic and

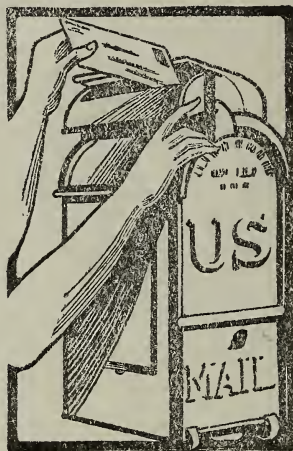

the flesh is firm and velvety, of a smooth solid texture. Price

75c per 100; \$5.00 per 1000.

GANDY—An excellent berry with a brisk tartness that is very pleasant. The flesh is very firm so that the berry stands shipping well. Price

60c per 100; \$4.00 per 1000.

Your Trees by
Prepaid Parcel
Post.

YOU CAN HAVE ALL VARIETIES OF FRUIT TREES SHIPPED BY PARCEL POST.

You can have fruit trees of all kinds delivered to your home. The parcel post service makes it possible for you to deal direct with us and makes it possible for us to ship your purchase to you promptly.

We have a large stock of mailing size trees that we are quoting at special prices. In all cases on orders of the items listed below to be shipped by parcel post we pay the postage. Our only request is that such orders total one dollar or more.

The trees and plants sent prepaid by parcel post are strong and vigorous and of the best grade, but slightly smaller than standard sizes. They are well developed, will grow and give satisfaction and make just as large and thrifty trees as the larger sizes.

All parcel post shipments will be carefully packed and we guarantee that the trees and plants which we mail to you will reach you in fresh living condition.

GARDEN ROOTS

flavored variety often produces stalks one and one-half inches in diameter. It is one of the most delicious and healthful of vegetables and coming so early should be in every garden. The ground should be rich and the plants, with roots spread out and covered three inches above the crown, placed in rows from two to three feet apart and eight inches apart in rows.

Per 10, 15c, per 100, \$1.00.

HORSE RADISH—A product in common use for which there is a growing demand and a staple cash market. Very valuable as a relish with food. Each 10c, per 10, 75c.

RHUBARB (Mammoth Variety)—Best for home use and for market. Each 10c, per 10, 75c, per 100, \$4.00, per 1000, \$30.00. Our plants are strong divided roots, they will yield the first season and are not to be compared with small seedling plants.

ASPARAGUS (Conover's Colossal)—This remarkably tender and fine

We have a little booklet on growing and marketing Horse Radish, telling all about the cultivation, the packing and selling this remarkable herb. Some of our customers are making \$900 per acre in this work. The book is a little gem and will be sent you by mail post paid for 10c.

LAYING OUT THE ORCHARD

To those not familiar with planting orchards it may be difficult to determine the number of trees or plants they will need for a certain size space.

The following information regarding planting distances will enable any person to determine the amount of stock they will need for any space.

Apple trees 24 to 33 ft. apart.	12 ft. apart.
Apricot trees 16 to 20 ft. apart.	Mulberries, 20 to 28 ft. apart.
Asparagus 1 to 2 ft. between plants,	Peach trees 16 to 20 ft. apart.
in rows 3 to 3½ ft. apart.	Pear trees, 20 to 27 ft. apart.
Blackberries 3 to 4 ft. between	Plum trees, 15 to 20 ft. apart.
plants, in rows 6 to 8 ft. apart.	Quince trees, 10 to 16 ft. apart.
Cherry trees, sour varieties, 16 to	Raspberries (Black) 3 ft. between
20 ft. apart.	plants in rows 6 to 8 ft. apart.
Cherry trees, sweet varieties, 20 to	Raspberries (Red) 3 ft. between
27 ft. apart.	plant in rows 5 to 6 ft. apart.
Currants, 4 ft. between plants, in	Rhubarb, 3 ft. between plants in
rows 5 ft. apart.	rows 4 ft. apart.
Gooseberries 4 ft. between plants	Strawberries—field planting, 2 ft.
in rows 5 ft. apart.	between plants in rows 4 ft. apart—
Grape vines 8 to 10 ft. apart, or 8	home gardening, 1 ft. between plants
ft. apart in the row with rows 10 to	in rows 2 ft. apart.

The following table shows approximately the number of trees to an acre according to the distance apart which they are planted:

40 ft. apart, 27	18 ft. apart, 135
35 ft. apart, 35	15 ft. apart, 194
33 ft. apart, 40	12 ft. apart, 303
30 ft. apart, 49	10 ft. apart, 436
27 ft. apart, 60	8 ft. apart, 681
24 ft. apart, 76	6 ft. apart, 1210
22 ft. apart, 90	5 ft. apart, 1743
20 ft. apart, 109	4 ft. apart, 2725

W. J. Thornton.

Kentucky, Feb. 28, 1916.

I received my peach trees O. K. and am well pleased with them.

John E. Hignite.

Campbell's Early Grapes

Special Introductory Price.

This superb new grape is fulfilling all the promises made for it remarkably well. It forms large and handsome clusters thickly set with large round berries covered with a light purple bloom. They are firm fleshed enough to keep and ship admirably, but the tender pulp parts readily from the small seeds, a quality that is now greatly appreciated. The flavor is rich, sweet, delightful. The clusters ripen very early and hold their berries well, keeping in fine condition for a month or more. The vine is vigorous and bears abundantly.

Each, 25c; 3 for 50c; 1 doz \$1.50, parcel post prepaid

Ozark Huckleberries

This delicious little berry is a native of the Ozark Mountain Range, remarkable for its fine flavor, is a choice fruit for jam, pies, and fruit cake. Grows luxuriant, very hardy, a prolific bearer, and when given a small amount of attention produces regular annual crops. Will grow on most any kind of soil, and when once set, is there permanently, never having to be renewed.

Price, each 10c; 1 dozen \$1, by Parcel Post Prepaid
